ACAP Comes To Stuttgart

Returning to civilian life can be difficult and without a plan it can be more so. The Army Career and Alumni Program is opening in Stuttgart, Jan. 13, on Panzer Kaserne, to help soldiers and their spouses shift from military to civilian life. ACAP offers those who are leaving the Army transition and job assistance training, relocation and financial management assistance. ACAP personnel assist with researching the job market, assessing job skills, writing effective resumes and cover letters and negotiating salary and benefits. ACAP encourages soldiers to schedule their pre-separation appointment with a transition counselor at least 180 days prior to separation. During this appointment, the counselor will explore career options with transitioning soldiers, discuss skills development, trial career programs and job searching. The counselor will also address job selection, financial management and relocation. Workshops on employment and training opportunities, civilian workplace requirements, resume writing, interviewing techniques and labor market information are sponsored by ACAP. They are open to active-duty service members and spouses who are transitioning. These workshops present a fresh perspective on transitioning. For info on ACAP call 431-2191/civ. 07031-15-191.

Christmas Tree Safety Tips

Every year, Christmas tree fires cause injuries and millions of dollars in damage. When decorating Christmas trees, always use safe tree lights listed by a testing laboratory; never use electric lights on a metal tree; any string of lights with worn, frayed or broken cords or loose bulb

connections should not be used; always unplug Christmas tree lights before leaving home or going to sleep; do not purchase a tree that is dry and water live trees regularly; make sure artificial trees are labeled as fire-retardant; make sure the tree is at least three feet away from any heat source and try to position it near an outlet so that cords are not running long distances; safely dispose of the tree when it begins dropping needles. Dried-out trees are highly flammable and should not be left in a house or garage.
